***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants' Arguments, filed 3/14/07, were found convincing to overcome the 35 USC 103(a) rejection issued in the Office action dated 12/14/06. Additionally, the prior art does not teach or suggest a process for heat recovery, in the production of 1,2-dichloroethane from chlorine and ethane by direct chlorination, wherein the vaporous 1,2-dichloroethane obtained from a direct chlorination reactor is compressed without phase change before being fed to heat exchangers for heat recovery. All claims (10-18) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
